

User Story: (Student)

A user story has three parts. These are:

- i. Card
- ii. Conversation
- iii. Confirmation

These are 3C's of a user story. Two functional requirements in the Student feature is give below.

1. Courses

Card:

As a student, I can view courses which are I am willing to see.

Conversation:

- ❖ I can view courses based on the departments existing in the system.
- ❖ I can view course details including course name and course code.
- ❖ I can also delete courses which I don't want to see.

Confirmation:

Success:

- ❖ Valid courses existing in the system is added based on department.
- ❖ "View courses"- shows the courses added by the teacher.
- ❖ "Delete"- deletes courses by the student.

Failure:

- ❖ "Season ended"- refers to the login page again
- ❖ "Object not found"- occurs at sometimes when view is clicked in some courses.

2. Assignment

Card:

As a student, I can view and add assignments, so that I can complete the assignments which are given by the teacher.

Conversation:

- ❖ I can add assignments.
- ❖ I can add multiple assignments.
- ❖ I can view assignments.
- ❖ I can view and add assignments of every course.
- ❖ Assignments are added in reverse stack format. That's mean that last in last submitted.

Confirmation:

Success:

- ❖ After adding the assignments, the display message shows that “the problem is posted successfully”.
- ❖ “View assignments”- shows the assignments submitted by students and also added by teachers.
- ❖ “Delete”- deletes assignments by the student.

Failure:

- ❖ “Are you sure?”- refers to whether the students wants to delete the assignment or not after clicking the “Delete” button. This shows as a display message.
- ❖ “Session ended” – refers to the login page again.
